Measure Your Wrist for Bracelet Size STEP 1: Measure your wrist with a flexible tape measurements or a strip of paper just below the wrist bone, where you would normally wear the bracelet. To measure your dog, take a tape measure from the tip of his nose to the base of his tail. Add approximately 15cm to this measurement to ensure they have ample space. Don't rely just on the weight of your dog. Consider sleeping position and if in doubt choose a bigger size. *This table is intended as a guide only.
